

A background image showing several Auro Europa coins, which are circular and feature a stylized 'A' logo in the center. The coins are arranged in a cluster, with some overlapping. The background is dark, making the metallic texture of the coins stand out.

AURO EUROPA

THE CRYPTOCOIN FOR FREE NATION STATES

WHITE PAPER 1.2

TECHNOLOGY

Auro coin (ORO) is an European alternative to Bitcoin. We are designing an emergency monetary system for Europe in case of dollar and euro collapse.

A PoS blockchain with a 88 million total coins. Inside the main blockchain other national token coins can be created and burned giving nations monetary freedom.

Aurocoin Foundation wants to create a usury free European central bank where money is owned by European citizens. Only real European citizens will be able to have an Auro account, no more banksters running political parties and corporations.

FORTRESS EUROPE

**DURING MILLENNIA
EUROPE HAS BEEN
THE LIGHT OF THE
WORLD**

CURRENCY WAR

BITCOIN VS AURO

We have started as a TRON network token with a total of 88 million coins.

The TRON network is a high-speed, eco-friendly network with super low commissions. To use the Auro it is necessary to use the official TronLink wallet available for both Android and Apple.

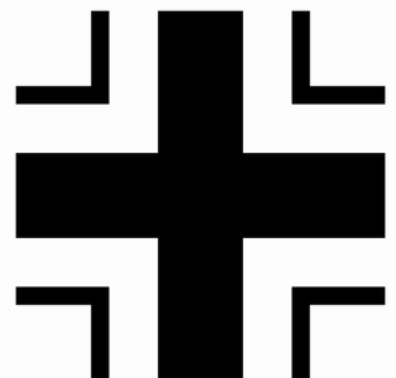

We are searching for corporate and European institutions to create an independent network with cutting-edge and ultra-secure technology.

The Auro Network will act as a wall against the entry of other globalist cryptocurrencies in the currency war that we are living now.

Aurocoin will act as gold for European nations, and wealth will be always in European hands. A new Reichsbank will arise as the bank of free European citizens.

Non-europeans will not be able to buy Aurocoin just national tokens. This way we will always preserve our independence and self-governance.

The natality of Europe is negative, we do not even come close to replacement rate. If strong actions are not carried out at institutional level, the European genotype may disappear in less than 3 generations.

MAKE EUROPE GREAT AGAIN

MORE THAN A CRYPTOCOIN

SMART CONTRACTS

Inside Auro main network there will be smart contracts with many applications: real state, stock market, decentralized exchange, insurance policies, web domains for Zeronet to create a free internet...

Bankers, vulture funds, and public notaries will become a disgusting memory of the past. European citizens will own money and properties without any intermediaries.

You will be able to sell, share and heir properties with a small transfer fee without any paperwork nor taxes.

You will also be able to buy and sell stocks from national companies without any broker or investment fund.

We can make Europe great again with a green environment, hydrogen clean energy and caring for Nature and all sentient beings.

We can make this real with a great European army and European Central Intelligence with the best weapons systems and cutting edge technology.
